At Blue Valley Cabinets™ we believe that no matter what your goal is, buying high-end, wholesale cabinets at an affordable price shouldn't be out of reach. Our all-wood products are of the highest quality and we offer an array of beautiful styles, colors, and finishes that will suit your project.

BLUE VALLEY CABINETS

Blue Valley Cabinets™ has served the Raleigh/Durham, NC area since 2021. We are happy to be adding to the quality and affordable products that are available in the region. We take pride in both our cabinets and customer service. Because our customers are so important to us, we strive to provide the best quality product at an affordable price.

Our designers are ready to assist you to create the kitchen you've always wanted but didn't think you could afford. With a variety of styles and colors, we're sure you or your customers will find what you're looking for. Our (5) five year limited warranty will give you and your customers peace of mind knowing that we stand behind our products.

Our manufacturer knows what it takes to produce quality cabinets at an affordable price. They take care in the production of each style and color. Having been in the cabinet manufacturing business for several years, they are able to manufacture cabinets that work with the different climates in which they are sold and installed.

Whether you want your cabinets assembled by us or you intend to do it yourself, we stand ready to provide you with the best possible service. Pick-up, delivery, and nationwide shipping options are available. Whatever you need, we will do our best to make your experience with us one that you will remember with satisfaction and a smile.

ORDER ONLINE BLUEVALLEYCABINETS.COM

BVC FIVE YEAR LIMITED WARRANTY

As a direct importer, we are confident in the cabinets we sell. We stand behind our products and offer a limited five-year warranty. If you have a warranty claim, please contact Blue Valley Cabinets and fill out the Warranty Sheet with a detailed description and pictures of the defects or damage you are experiencing with our products. Fill out our Warranty Sheet on our website, <https://www.bluevalleycabinets.com/2477-2/> or email your completed Warranty Sheet to info@bluevalleycabinets.com and upon receiving your warranty request we will let you know our decision to repair or replace the defective product. **DO NOT PROCEED TO THE NEXT STEP WITHOUT THE PRIOR WRITTEN CONSENT OF BVC.** BVC will be responsible for all shipping and handling fees if a valid claim is approved. **Please review our terms** for more details on your product's warranty. **THIS LIMITED WARRANTY IS SUBJECT TO ALL LIMITATIONS, EXCLUSIONS, DISCLAIMERS, APPROVAL, AND PROCEDURES.**

For a period of five years, BVC warrants to the original purchaser that cabinetry, door hinges, and drawer glides will be free from defects in material and workmanship under normal use and service. This warranty is not transferable and only applicable to products used for single family owner occupied residential purposes. This warranty does not cover normal wear and tear, damage or defects caused by accidents, **misused or abused items, mishandled or improperly installed items, improperly stored items, customized or modified items, or items that are subject to extreme temperature or moisture level.**

Natural woods may vary in color and grain pattern. Just as no two trees are alike, no two pieces of wood are alike. The variation in color and grain pattern in wood adds to its natural beauty and is not considered an imperfection. Environmental factors, including but not limited to artificial/natural light, moisture, cleaners, smoke, etc. may cause the darkening or mellowing of a cabinet over time. This is a natural process and can be expected. This warranty does not cover the natural aging or darkening/mellowing of wood color, the inherent growth characteristics of, or variation in wood.

Wood is wood, and expansion contraction still happens year after year as it compensates and adjusts to ever changing atmospheric humidity and temperature conditions. Therefore, warping of less than ¼" is not considered a defect. The purchaser agrees to let doors that are warped ¼" or more to hang for two seasons before replacement is requested. Typically a door will return to its normal flat position once it is acclimated to temperature and humidity conditions. Prior to requesting a replacement for a warped door, please be sure the door has been installed properly and hinges are adjusted correctly.

Stain variations: since no two trees are the same, wood is a unique material with natural variations in grain, texture, and color. These variations may also cause considerable differences between old samples and new cabinets. Please Note: Newly produced cabinets will never be the same color as aged samples or cabinets. Color changes may occur in the finished wood products. As a result of exposure to light and other elements which are part of the aging process. These material variations and changes are not covered by this warranty.

Some of the cabinet lines feature a glazed finish which accentuates the door and drawer front profiles. This glaze is hand applied over a stain or paint and may, due to the nature of application, consist of random drips, runs, etc. As glazing is a hand applied process there will be variations in color and appearance from door to door and cabinet to cabinet. This is not considered a defect and is considered normal with hand applied finished. Cabinet lines with painted surfaces may show fractures in the paint at joints. This is normal and is not considered a defect.

At our discretion, we may elect to repair or replace with a functionally equivalent product covered by this warranty. Some replacement parts are subject to stock availability and may differ from original parts received. Return of the defective product may be required for a replacement to be issued. Repair parts and replacement parts are at the expense of Blue Valley Cabinets. This warranty does not include or cover the cost of installation, removal, subsequent damage, or transportation of the defective product. This is regardless of whether work was performed by a contractor, service company, or yourself.

To obtain service under this warranty, please contact the business from whom you purchased this product. A copy of the original purchaser's dated receipt must be submitted with all claims to preserve the rights under this warranty. This warranty is non-transferable. Blue Valley Cabinets Inc. reserves the right to inspect the claimed defective cabinets. No returns, replacements or repairs may be made without prior written consent.

This warranty is the sole warranty of Blue Valley Cabinets Inc. No dealer, distributor, or agent possesses any authority whatsoever to modify or enlarge the above warranty in any way.

TRIM INFORMATION

CROWN MOULDING

Crown Moulding is used to finish the tops of tall and wall cabinets. Some cabinets are Full Overlay - this means the doors overlap the front face frame of the cabinet box, leaving only a small amount visible. Since this visible reveal will vary depending on the specific cabinet line you choose, it may require the Crown Moulding to be installed on top of the cabinet frame instead of to the face, secured with blocking from behind. Crown is available in various styles and sizes to accommodate different designs and ceiling heights.

BASE MOULDING

Base Moulding is generally used to provide a decorative trim at the floor level of base cabinets by installing it with the profiled edge facing up. It completes the lower sections of panel skins used on islands and peninsulas to give them a more furniture-like feel. Installing the moulding along the lower section of cabinet back panels and sides, and ending at the toe recess will create one continuous look.

FILLER

Filler is more commonly used to "fill" any gap or leftover space in a run of cabinetry by field-cutting them to the desired size. They can be used vertically to provide additional space between a cabinet and a wall in order to keep the edge of doors from binding into the wall, or to keep fully extended drawers from impacting close obstacles. They can be used horizontally as crown, lightrail, or valance, or to add additional dimension as a riser moulding. Fillers are available in a variety of lengths to minimize waste.

LIGHT RAIL MOULDING

Light Rail Moulding is used to finish the bottom of wall cabinets. It can function as a trim to conceal under cabinet lighting fixtures and provide a barrier from the light glare, or as a decorative enhancement. When selecting a Light Rail Moulding, be mindful of the moulding height to ensure that the open space left after installation will accommodate any countertop appliances.

CORNER MOULDING

Corner moulding is used to cover an unfinished edge or gap where two panels or pieces of material meet at a 90 degree angle. Outside Corner Moulding is used to cap the raw edge of material visible on an exterior corner. Inside Corner Moulding is used to cover any gaps where two pieces of material meet on an interior corner. They should be used in conjunction with any design that will require finished paneling on the back of a cabinet such as an island or peninsula.

TOE KICK

The purpose of a toe kick space is to create a recess for your feet, which allows you to stand closer to the countertop or workspace more comfortably. The toe kick stretcher attached to the cabinet is usually made of unfinished material. After installation, a finished Toe Kick Moulding is applied to cover an entire run of unfinished toe space. Toe Kick Moulding is a 96" long strip of finished covering that is fieldcut and positioned in the recess to provide a continuous completed look to the cabinetry. Our cabinets come with a toe kick. Our cabinets do not come with toe kick skin.

SKIN PANELS

Skin Panels are finished either 1 sided, 2 sided, or unfinished. They are available in a variety of sizes in order to provide finish options for different needs. These Skin Panels are available in specific sizes and are designed to fit on the side of a cabinet behind the face frame edge with field cuts required. Oversized Skin Panels, such as those used to finish the back of an island or to cover a stack of cabinetry, are larger and must be field-cut to the desired dimensions.

SCRIBE & BATTEN MOULDING

Scribe and Batten Moulding are thin pieces of finished trim used to cover any areas that may have uneven gaps or raw edges visible once installation is complete. They are slightly flexible, allowing them to follow slight curvatures against walls, floors, or ceilings. Scribe moulding is typically used any place the straight edges of cabinetry visibly come into contact with a surface that is bowed or uneven. It is also used to cap the cut, unfinished edge of a Toe Kick Moulding or any other raw edge of material up to ¾" wide. Batten moulding is typically used to cover seams between two back panels on an island. They are available in 96" lengths and must be field-cut to cover any visible gaps or seams against walls, panels, floors, and ceilings up to ½" wide.

STARTER STRIP/RISER MOULDING

A Starter or Riser is used as a mounting frame for Crown Moulding in order to increase the overall height of a Crown Moulding assembly, or allow it to rise flush to the ceiling. A Starter or Riser is mounted to the cabinet top in order to simulate an extension of the cabinet, allowing the Crown Moulding to be installed higher. Using a Starter or Riser in conjunction with a Crown Moulding also provides the ability to better disguise an uneven ceiling, as one end of the Crown Moulding may be mounted higher or lower than the other end along the face of the Riser.

SHAKER CABINET FEATURES

We provide affordable factory direct all wood cabinets of the highest standard and quality. Custom cabinet quality with certain features common in every unit:

- ✓ Every drawer has quality dove tail construction
- ✓ Simple removable drawers for easy cleaning
- ✓ No particle board anywhere!
- ✓ Soft closing drawers and doors
- ✓ L-Bracket reinforced cabinets for heavy granite, cement or other stone tops

To clean BVC cabinets, simply use dish soap and a soft wash cloth. Avoid abrasive sponges or harsh chemicals to maintain the cabinet's finish. Any damages or defects due to the use of abrasive sponges or chemicals other than dish soap will not be covered under our warranty.

OVER 150,000 SQ.FT. FILLED WITH INVENTORY

- List design preferences and inspiration images in email prior to initial design.

ATTENDANCE:

- Ensure decision-makers are present or available.
- Appointments are booked for 30-60 minute durations max.

CUSTOMER RESPONSIBILITIES:

- Ensure precise measurements prior to the design and thoroughly review quotes for accuracy prior to purchase to identify errors or miscommunications. Customer approval of the design and quote are prerequisites prior to the cabinet purchase.
- Once designs are finalized customers must sign off on the order form prior to orders being placed.

STEPS TO BOOK AN APPOINTMENT:

1. Request for a Meeting:

BVC responds within 24 hours, requesting measurements for the initial design which will be completed prior to an in-person appointment.

2. Booking the Appointment:

Appointment within 1-3 business days.

3. Meeting at BVC:

Appointment duration: 30-60 minutes post-initial design.

4. Changes and Revised Drawing:

Revised drawing provided within 1-2 business days.

CONTACT:

- Email: paige@bluevalleycabinets.com or info@bluevalleycabinets.com

DISCLAIMER:

- Timelines may change based on project size and workload, which will be agreed upon before project acceptance.

HOW TO MEASURE YOUR KITCHEN

1. Sketch out the kitchen or space with wall to wall locations and dimensions.
2. Ceiling height including drop down ceiling or soffits.
3. Desired wall cabinet height of 30", 36", 42", or stacked cabinets.
4. Mark the general area of the appliances:
 - a. Fridge width and height
 - b. Range width (cooktop or slide in range)
 - c. Dishwasher
 - d. Sink width (Drop in, undermount, farmhouse sink, etc.)
 - e. Oven width and height (Need product specs)
 - f. Microwave sizes and location
5. Note center gas line, sink plumbing, and electrical outlets.
6. Location of the doors and windows from outside trim to outside trim measurements and any obstructions (i.e. radiators, etc.).
7. Cabinet color and desired moldings.
8. Pictures of the space (optional).

Blue Valley Cabinets Claims/Warranty Submission Policy & Procedure (Customer Pickup, LTL, Direct Truck & BVC Delivery)

Please note that Residential delivery is "curbside" when the delivery method is LTL/Common Carrier. You may need help to move the merchandise off the truck and to your desired indoor location.

BVC is not responsible for moving cabinets into your home unless you have paid for White Glove service & the delivery is made on a BVC delivery truck.

If the delivery cannot be made to your home due to accessibility issues, (e.g., narrow road, road not wide enough for the Tractor Trailers to turn around, etc.) it will be the customer's responsibility to make arrangements with the delivery company.

It is the customer's responsibility to identify site conditions at the time the order is placed and make any necessary arrangements to have the cabinets moved from the curb to inside. If you are unable to inspect the package(s) at the time of delivery you must note that on the Bill of Lading ("BOL"). Once you sign the BOL you assume full ownership of the product.

Reporting Damages or Shortages at Time of Delivery:

ALL claims must be reported within 72 hours of the signed Bill of Lading, BVC delivery ticket or customer pickup ticket.

Any claim submitted after that time will be deemed untimely and denied. Damage or shortage claims on merchandise delivered by the Carrier must be noted at the time of delivery. When a shipment is received that shows obvious damage, please make a notation on the carriers' freight bill or **refuse the entire delivery**. Visit our website to complete the warranty form & to upload pictures:

<https://www.bluevalleycabinets.com/2477-2/>. Email submissions of warranty claims will not be accepted.

ALL claims must be reported within 72 hours of the signed Bill of Lading, BVC delivery ticket or customer pickup ticket

If damages/shortages are noted at the time of delivery or pickup, we will process the claim with the respective carrier. If you have possession of the product, you will need to hold onto the items until after the claim has been processed and the respective carrier has instructed you what to do with the damaged merchandise.

Upon verification of damage (carrier receiving documents including pictures from the customer) Blue Valley Cabinets will refund or replace the damaged part or parts of your order. Visit our website to complete the warranty form & to upload pictures:

<https://www.bluevalleycabinets.com/2477-2/>. Email submissions of warranty claims will not be accepted.

Reporting Concealed Damages:

When damage to, or loss of, contents of a shipping container is discovered by the consignee (customer) that could not have been determined at time of delivery, you must report the damage to the delivering carrier immediately upon discovery.

Notice of loss or damage must be submitted through our website: <https://www.bluevalleycabinets.com/2477-2/>

While awaiting direction by carrier, the consignee (customer) must hold the shipping container and its contents in the same condition they were in when damage was discovered, insofar as it is possible to do so.

Unless otherwise specified by the carrier, notice of loss or damage should be provided to the carrier within three (3) business days from the date of delivery.

If three (3) business, or such other period as specified by the carrier, pass between the date of delivery of the shipment by carrier and date of report of loss or damage and request for inspection by consignee, it is incumbent upon the consignee (customer) to offer reasonable evidence to the carrier when inspection is made that loss or damage was not incurred by the consignee (customer) after delivery of shipment by carrier and could not reasonably have been discovered prior to the time the damage or loss is reported .

Delivery Refusal:

Customers will pay all return shipping charges if delivery of an item is refused for other than damage, the return freight will be deducted from the refund amount. The return policy of original shipping and 20% restocking fee also applies to all non-warranty claims.

This exclusion also applies to customers who do not respond to freight carriers phone calls or email attempts for delivery.

Unable To Schedule Delivery/Set Delivery Appointment:

Blue Valley Cabinets reserves the right to have an order/freight dropped without a signature/person being present when a customer has been unable to be reached after multiple phone calls and/or emails from the carrier to secure a delivery appointment) This is to help in cutting down on additional freight charges/storage fees, which is the customer's responsibility.

Storage Charges:

The carrier(s) may charge a fee for storage ("Notify Detention Fee") if the shipment is not accepted within 48 hours of being notified that the shipment is ready to be delivered. The Notify Detention Fee is not included in your original shipping charges at the time you placed your order. Any of these additional charges/fees will be charged to the credit card on file at the time of your order was placed. The fee(s) can be up to the original shipping charges. To avoid any such fees, it if your responsibility to timely respond to communications from the carrier.

Missed Appointments:

The carrier(s) may charge a fee for canceled/broken appointments (re delivery fee), which is not included in your original shipping charges at the time you placed your order. Any of these additional charges/fees will be charged to the credit card on file at the time of your order was placed. The fee(s) can be up to the original shipping charges. This also applies to customers who do not respond to the carrier's phone calls or email attempts for delivery.

Delivery To a Different Address:

Once your order has been marked as shipped, the shipping address **cannot** be changed. If you must change the shipping address after it has shipped, the carrier(s) will charge a fee for the new address assignment (reconsignment fee), which is not included in your original shipping charges at the time you place your order. Any of these additional charges/fees will be charged to the credit card on file at the time of your order was placed. The fee(s) can be up to the original shipping charges.

On checkout there is a required box that the customer must check stating they have read the above policies. By using our online ordering system, you agree to all these policies as material terms of your contract to purchase cabinets from Blue Valley Cabinets.

Thank you for your order!
